Hi David:

I don't find the VOC and metals data for sediments, or any SVOC results

Subject: FW: New Adit Data Summary

Here is the draft summary of the mine adit data. Please review this and get back with me by next Wednesday with any comments. I will be contacting La Plata County to set up a meeting with them soon, once they have their data back. Also attached are the data validation reports for all analytes except the rad results, which still need the final data validation completed. Please forward this to anyone else who should review this summary and data before we share with La Plata County.

Thanks
